Headline Speakers for 2021:

Alan Nelson
Chief Technology
Officer, **ADNOC**

Giacomo Silvestri
Group Head of Digital
Eni

Rob Kelly
VP Digital Production
& Products, **BP**

Key Pillars for 2021:

Ease Communications:

Break down silos across exploration, drilling and production and strive for a digitally integrated oilfield

Lower Carbon:

Use digital to set near-term emissions targets and track accountability across upstream operations whilst meeting global energy demand

Automate to Accelerate

Wield automated and integrated systems to dramatically reduce downtime and OPEX at scale
