

Elinor Doubell

Director Information & Data Management Lead BP

Elinor Doubell graduated from the University of Manchester Institute of Science and Technology with a BSc in Physics with French in 1994. She then worked for Kodak for 10 years in development and process engineering in UK, France and the US before joining BP in 2004.

Since joining BP she has held a range of technical leadership roles in BP's Downstream and Upstream businesses focused on transformation involving the combination of process improvement and IT solutions with introducing new skills into the company. This is how she got interested in data management and her focus is now on building the organisational capability in this often under-valued area. Elinor is currently leading Information & Data Management in BP's Upstream IT and coordinates Information & Data Management across BP's Upstream.
