

# Bettina Bachmann

Director

**VP FOR SUBSURFACE & WELLS SOFTWARE  
(PROJECTS & TECHNOLOGY)**

Shell

---

Bettina Bachmann joined Shell in 1983 and is currently the Vice President for Subsurface and Wells Software in the Projects and Technology organization, based in the Netherlands. Her responsibilities include software development, strategic partnerships, global deployment and technical data management.

Prior to this she held various technical, strategy and leadership roles in Exploration and Upstream Development. She lived and worked in the Middle East, Africa and Europe.

Bettina has a MSc in geophysics from the ETH Zuerich, Switzerland.

She is also serving as a non-executive director on the board of MagSeis and as a member of the Board of Trustees on the Pension Fund for Shell Switzerland.
